Coursework Report – 5COSC019C Object Oriented Programming

Student ID:.20220496 / w1998841	
Have you submitted the <u>video with the demonstration</u> of your system?	☐ No
If the video has been submitted specify where: Blackboard On the cloud (file shared from Google drive, or OneDrive or DropBox, on the cloud (file shared from Google drive). https://drive.google.com/file/d/17bK6RchqhoklvORCby0wOCPsF8Zoha	<u>the link</u> :

Phase 1 – Design and class implementation

Task	Did you	Student's comments (To which extent you
TUSK	attempt the	implemented the task? Have you encountered any
	task?	problems or issue?)
Design a UML Use Case Diagram of your	Yes No	This is inside the test case document
system (submitted in a separate file).		This is made the test dase accument
Design a UML Class Diagram of your	Yes No	This is inside the test case document
system (submitted in a separate file).		This is made the test dase accument
Implementation Class Product	Xes No	Abstract product class implemented
·		
Implementation Class Electronics	Xes No	
		This class extends the product class
Implementation Class Clothing	Yes No	
		This place out and a the must wet place Commisted
		This class extends the product class. Completed
Implementation Class User	⊠ Yes No	
Implementation class osci		Represent a user. Completed
		Nopilasan a assir samplasas
Implementation Class Shopping Cart	Xes No	When user add a product to the shopping cart list
		updated here. Completed
Implementation Interface	Vas 🗆 Na	
Implementation Interface	Xes No	This class implements that shapping manager class
WestminsterShoppingManager		This class implements that shopping manager class and main program run in this class. Completed
		and main program run in this class. Completed

Phase 2 – Console menu implementation

Task	Did you attempt the task?	Student's comments (To which extent you implemented the task? Have you encountered any problems or issue?)
Add a product in the system with all the relative information (max 50 doctors)	X Yes No	50 different products can add to the system. Completed
Delete a product from the system by selecting the product ID. Display a message to confirm it has been removed and the total number of products in the system.	Xes No	Delete a product from the system by selecting the product ID. Display a message to confirm it has been removed. Remaining number of products do not show Completed
Print on the screen the list of the products in the system with all the relative information. The list should be ordered alphabetically.	X Yes No	Completed
Save in a file entered by the user so far. The user should be able to load back the information running a new instance of the application.	Xes No	Completed

Phase 3 – GUI Implementation

Task	Did you attempt the task?	Student's comments (To which extent you implemented the task? Have you encountered any problems or issue?)
The user can select the category through the drop down menu	Yes No	Completed
The GUI is open and a list of products with the information as per specification has been displayed	Xes No	Completed
Items with low availability are highlighted in red	⊠ Yes □ No	Completed

The user can select a product and all the details are displayed as per specification in the below panel	Yes No	Completed
The user can add products to the shopping cart and all the information are displayed in a separate frame	X Yes No	Completed
The final price is displayed correctly	X Yes No	Completed
The discounts, if applicable, are displayed as per specification and the final price updated accordingly	X Yes No	Completed

Phase 4 – Testing and system validation

Task	Did you attempt the	Student's comments (To which extent you implemented the task? Have you encountered any
	task?	problems or issue?)
Test plan. (Submitted in a separate file).	Yes No	Completed in the test report.
Implementation of an automated unit test for each scenario in the console menu.	∑ Yes ☐ No	Completed using new test class.
Error Handling across all the code, input validation and code quality.	∑ Yes ☐ No	completed
